GAME TODAY.

Collegiate and University Teams Meet at Varsity Campus.
This afternoon the second team of the university and Collegiate Institute eleven will meet at the Varsity campus. The two teams are very evenly matched in weight and both have been constantly at practice with this game in view for several weeks so an interesting contest is probably put up an interesting contest.

Practice at Varsity Campus.

For something more than an hour the Y. M. C. A. and university football eleven were opposed to each other yesterday and each team secured some beneficial practice. As the university team had not yet mastered its signals the ball was given to the Christians and the Varsity boys played on the defensive. Specially good work in tackling and breaking up interference was done by Harry Osler, a candidate for end on the Y. M. C. A. team, and Brown and Grossbeck of the university. The interference of the Christians showed marked improvement over that of Saturday in every play. Before the two teams lined up the Christians practiced catching punts and tackling. Nels Margrett was at halfback and he made an excellent showing. If Hyatt carries out his expressed intention of playing only on the Varsity team his place will probably be taken by Nels Margrett.

The game between the All Hallows and Ninth cavalry teams which was scheduled for this afternoon has been called off and the two teams will probably meet at Walker field on Saturday afternoon.

The Y. M. C. A. team has not been able to secure any more games since the victory of last Saturday but it is expected that a return game with Ogden will be played a week from Saturday at Ogden.

A transaction of considerable magnitude is in process of consummation, whereby the large grocery and hardware house of Cunningham company will obtain for its increasing necessities permanent quarters on Main street. A contract of sale has been entered into between Cunningham company and Richards Brothers and by its terms the latter is obligated to convey to the former forty-one feet and a fraction at 48-10 South Main street, and running back nearly 200 feet to Richards street, for a price approximating \$38,000.

The premises are now occupied by the K. K. Thomas Dry Goods company, but it is the intention of the Cunningham company to improve the rear by erecting a large and substantial warehouse fronting on Richards street. The Main street building is substantial and with the addition of another story or two would be a modern business structure.

The acquisition of the Richards property by Cunningham company will doubtless be the beginning of a movement to make Richards street an avenue of wholesale and storage houses. The erection of the new building for the Cunningham company is a move, add to the commercial importance of upper Main street.
